De tr s belles photos, un photographe qui a du style le mod le est tr s bien mis en valeur la nature galement et les couleurs sont magnifiques Je recommande. When it comes to nude erotic photography books, I m always a little worried that the photo on the cover will be the only one I actually like Happily that is not at all the case with this book the cover photo is very representative of the style and quality of the rest The locations were beautiful, and I thought all of the models were at least moderately attractive, with many of them being jaw droppingly stunning Highly recommended. What can be said about this Stefan Soell book which features crisp clear pictures of natural beauty and youth Well it is not classic because they are mostly bare down there, and there is none of the Vaseline on the lens type of shots typical of David Hamilton and generally a modern and direct treatment of the subject When looking at images like this you get the feeling the subjects are making the statement so what, I m naked It is almost as if they could be sexy with clothes on and be less offensive to those with sensibilities about full frontal nudity Sexy is not what the artist seems to be going for, this is in your face nudity and look at me attitude Most models look into the camera and that is not for everyone It is nice to see so many beautiful young ladies enjoy showing the world what they have been gifted with, and do it with a smile, and the quality of the paper and the large format 24cm by 30cm bigger than A4 are all above standard All bar one

European Caucasian white skin set against deep forest greens and blue skies Alpengluhn by the same author is just the same thing again but slightly explicit. This was actually the first Stefan Soell book I bought Beautifully composed photos of lovely European women in incredible locales I can appreciate Stoell s model selection that range from supermodel looks to the girl next door Everything comes together right in this books with composition, lighting, scenery, ladies, outfits and makeup Not sure if all the ladies are naturally endowed, but no obvious surgery scars or refund gaps in the bunch. After picking this book up, I bought Stefan s other works, Alpengluhn, Modern Urban Girls and Volcanic Girls Waldlust is a continuation of the wonderful work done in Alpengluhn While I recommend picking up all of Stoell s book, I would suggest starting here with Waldlust and then Apengluhn. good pictures why cant we get like this The photos are top notch the models are lovely and the locations make the photos very interesting It is a quality publication. The Nature settings a lot of the photos are in give a wholesome innocent quality to many of the images and the models in them even with the nude poses the models are in Overall a very good publication.
