Uncompromised is a powerful memoir Nada Prouty, a former FBI and CIA agent, tells the story of how she came to be involved in the War on Terror, and how she was accused of

spying for Hezbollah She starts her story with her childhood in war torn Lebanon, providing an interesting and important background to both who Nada is as a person and her desire to serve the United States in the fight against terrorism She then goes on to tell of her immigration to America, and how she became first an FBI agent, and then later a CIA spy finally, Nada concludes with the devastating story of how she became known as Jihad Jane, when she was falsely accused of spying for Hezbollah The writing is fairly simple, yet works very well for Nada in telling her story There were some parts where she discussed her former colleagues, especially in discussing her time at the Bureau, where I was a little off put because she described her unwavering commitment to justice and often compared it to her colleagues lack of concern about the mission while it may very well be true, the tone bothered me a bit, in that it made her come across as having a holier than thou, I m patriotic than you are attitude But for the most part, I very much enjoyed reading Nada Prouty s story, and I think it is definitely an important and timely one to be shared today. I'm particularly glad to know it now. Mostly it was just completely disgusting and made me embarrassed for my country and what was done to her. Nada was born in Lebanon and came to the United States both to get away from her incredibly oppressive family and to get an education. She made some mistakes when she was first here, most notably marrying a man in order to gain citizenship, but her eventual service to our country should have made up for it. She went on to serve in both the FBI and the CIA and by all, er, most accounts her first hand knowledge of the Middle East and the Arabic language were extremely valuable. Then of course she gets completely shafted for no real reason. You can see it coming a mile away, not just because of the revealing title, but because it's set up in a pretty obvious way. Overall this was an interesting read, though, again, it embarrassed the hell out of me. I also found the flow to be a little off. The first 3/4 or so dealt with her life in Lebanon, her immigration to the United States, and her service to the intelligence communities. Then it dealt with the fall and that portion felt a little rushed and wasn't nearly as detailed. This was a really interesting book that definitely kept the pages turning. The author was simply trying to serve the country that she'd grown to love, but our government sure did make it difficult for her. Overall I found the writing to be fine, but it felt like the end was a little rushed. About 3/4 of the book is a build up to the ridiculousness, and then it's just sort of rushed through. I felt like the reasons she was set up should have been gotten into with a little depth. I would certainly recommend it to a friend and I'm glad I read it. Also, thanks to the LibraryThing Early Reviewers program for the copy of this book.

Nada Prouty is a Hero. Her brother and father are Assholes. Kenneth Chadwell is an Asshole. Kenneth L. Wainstein is an Asshole. That being said, *Uncompromised: The Rise and Fall of an Arab American Patriot in the CIA* by Nada Prouty is an incredible history of a woman able to overcome a very difficult childhood in Lebanon to make herself into an American hero. She has suffered through an immense amount of difficulties, magnified by abuse from an abusive father, to become a solid citizen and a major contributor to the battle against Islamic terrorists. This book will make you mad, and make you appreciate all the fine men and women that work to keep us all safe. Highly recommended reading for anyone interested about terrorists and the people who fight them.

Guilty. And a liar. This was a GREAT story but I had to give it three stars for the organization and narrative of the writing. But Nada's story is compelling and heartbreaking at the same time. Wow I'm still reeling a bit from what this woman has gone through. First of all, her memoir is extremely well told. I was expected a lot of telling, no showing and was pleasantly surprised to find myself hooked from the get go. She tells her story well, keeps the reader hooked, educates as well as entertains. Feels kinda wrong to be entertained by a memoir such as this. The book starts in Lebanon. Nada comes from an abusive household. Her parents considered her and her sisters worthless. They didn't even celebrate their birthdays. They doted on her brother, gave him the better food, paid for his education, held the girls down so he could beat them. Yea, shocking stuff. Nada doesn't dwell on that overly long though. Soon she is finding a way to

escape to the U.S where she finds not all Americans were on drugs or in a constant state of drunkenness after all LOL That made me laugh There s a sham marriage, her family coming and taking over, her break from them, another marriage, obtaining a job with the FBI and finally having a family within that organization, an organization that later betrayed her. She talks about Pan Am flight 73 hijacking Though she went on a bit too much about this, I found it fascinating Having been a child in the 90s, I wasn t aware of this history Shocking stuff She also talks about a murder case Then she moves on to the CIA takes covert missions until her pregnancy hinders the investigation and just wow I m gonna stop there The anthrax on the plane OH MY I was biting a finger nail while reading that. The books ends with her family again Their mess, their accusations, their greed and hate got her in trouble with the FBI and CIA Very sad and exciting story both Well done I think this woman could have a career as a writer if she never goes back to law enforcement.

Uncompromised opens with a M16 being shoved into Nada Prouty s face while she was on a secret mission for the CIA in Bagdad How did she get there She started out as one of the verbally abused and beaten daughter of a Lebanese family She was raised as a Druze, a religion that combines Christianity, Judaism and Muslim beliefs Not only were she and her sisters maltreated by her parents, she was in a religious minority that did not get much respect How did a brave young woman emerge from that background Culture and her father s financial benefit demanded that she be married off to another Druze with higher financial assets Also Lebanon was undergoing political upheaval and it wasn t safe to be a Druze in her neighborhood any. Nada Prouty tells her life story with drama and poignant details from the time that she was a girl trying to survive her father and her brother s beatings, to her trip to Detroit to meet up with her older sister and then get an education as a ticket out of her heavily prescribed life. She has a very strong will to survive, a keen intellectual mind, athletic body and demonstrated her cleverness at a very young age She had to be in order to escape the beatings as much as possible This is the story of her journey from girlhood to CIA agent and her problem that put her career and citizenship into jeopardy It is also the story of her role in many high profile international investigations. I enjoyed reading about her life journey and learning about our investigative institutions It kept my interest throughout the book. I recommend this book to all who are interested in the Middle East, the FBI and CIA. I received this book as a win from the Library Thing but that in no way influenced my review of this book.

"By turns uplifting and chilling, but never bitter, Prouty's unflinching memoir is the story of a particularly resilient American patriot." —*Publishers Weekly*
