It s a good premise a different take on werewolves for sure Lena is a skinwalker experiencing her first heat, but she doesn t know that about herself Hunter, who left her

once when they were young, knows and seeks her out to get her through her first heat She hasn't quite forgiven his abandonment but lets him anyway, knowing that afterwards she'll be alone again This was a little too short to wrap up everything to my preferences I felt like Hunter's abandonment of Lena earlier in life did not get resolved fully And this needed an epilogue to answer some questions And I had so many before the end of the story what happens with Lena's future and school Does she end up pregnant Was Hunter sterile after all What happened to her mentor Why wasn't Lena there when Hunter supposedly returned Very nice short story Wish it would have been longer though. Miniseries Time Raiders A learning book for me All about the Wolf changelings Really explains a lot of the ins and outs Should be a first book for everyone just getting into the paranormal especially wolves 5 stars.
