Since an actual getaway to the South of France isn't happening for me anytime soon, tagging along with Josie and Connor was the next best thing. The lavender, the heat, the

sunshine, it almost felt like I was there Josie and Connor wind up having to share a vacation home, it s contentious, and playful, and steamy, and all that good opposites attract stuff, with one of the honest sex scenes you ll find in a romance novel Josie s temper and her workaholic tendencies aren t serving her well at the office, but her flaws made her a heroine to root for, especially in the moment where she speaks her mind to her parents Connor was a great match for her, an alpha with panic attacks, antagonistic, but in a flirty, encouraging way I enjoyed this one, and I m hoping Abi gets a book of her own at some point Connor s sister only appeared briefly, but I found her endearing and I d love to see how she works through her emotional baggage.I received this through a Goodreads giveaway. This is an uptight heroine who meets a free spirit hero story They hate each other at first, then loosen up and start liking each other A lot Then they have a fight Part of it is that she works with and likes his sister, and he s cut the sister out of his life, claiming sis cut him off first Heroine goes home and mopes Hero wanders off to his job digging water wells in India and sulks Then he has an epiphany and goes to find the heroine at the perfect telling moment.

A red hot contemporary romance set in the South of France, Holiday with a Stranger is Christy McKellen s fabulous debut novel for Harlequin Kiss.Josie Marchpane s life revolves around her job Having spent most of life being told that she didn t have what it takes to become a success, Josie is determined to prove her doubters wrong Having invested all of her time and money into her fledgling business, Josie works crazy hours, has got no social life to speak of and cannot remember the last time she went out on a date, but she wouldn t have it any other way She cannot afford distractions of any kind and if she s been a bit of a nightmare in the office recently, it s only because she wants the company to get off the

ground and thrive But Josie s best friend and business partner, Abbi, is worried about her Although Abbi cannot deny that Josie is a hard worker, she knows that her friend is stressed out, working too hard and close to breaking point With her grandmother s cottage in the South of France empty, Abbi orders Josie to take some time off and to spend a fortnight away resting and recharging her batteries With no other choice available to her, Josie reluctantly agrees, however, little does she realise that she is going to have company in the cottage in the shape of Abbi s drop dead gorgeous brother, Connor Free spirited Connor does not like being tied down An experienced traveller who is always jetting off to exotic locations, Connor likes to keep his schedule free, his relationships casual and his life as free from complications and commitments as possible After three months away, Connor is looking forward to going home to his grandmother s cottage in the South of France and sleeping in his own bed The last thing he wants or needs is to have a housemate so he is stunned when he finds a naked woman sleeping in his bed Connor is not best pleased that Josie has made herself at home in his cottage and he s furious when he finds out that she s in his house on his sister s instructions Having always had a very strained relationship with his sister, Connor wants nothing to do with Abbi or with her imperious best friend But unfortunately for him, Josie is determined to stay in his cottage for a fortnight and she is not going to relinquish her accommodation without a fight However, house sharing soon proves to be the least of their problems Thrust into close proximity together, Connor and Josie soon begin to find themselves attracted to one another When a sizzling kiss leads to undeniable passion, Connor and Josie give into temptation and embark on a no strings affair But when mutual attraction gives way to something deeper, will they keep to their resolve to keep their relationship casual or will they find the courage to face up to their feelings and admit that they ve fallen madly in love with one another Christy McKellen s name is one readers of fast paced and feel good contemporary romance would do well to remember In her debut novel for Harlequin Kiss, this talented new author has written a fun, fresh and flirty read that is packed with scorching emotional tension, steamy love scenes, witty repartee and irresistible romance I loved Josie Although when we first meet her she is bolshy and neurotic, Christy McKellen very cleverly begins to strip away the layers of protection she has been hiding behind and reveals the reason why she has been plagued by doubts all her life, before emerging at the end of the book as a feisty, strong and endearing heroine Connor was a marvelous hero who was sexy, charming and absolutely gorgeous I defy any reader not to be completely and utterly won over by him. Sexy, enjoyable and far too good to miss, Christy McKellen s debut novel Holiday with a Stranger is a first class read readers will find impossible to resist This review was originally published on Cataromance. Flawed and vulnerable characters will endear readers as they face their insecurities and learn to trust one another RT Book Reviews, rated 4 stars Holiday with a Stranger is a cute sexy romance that shows what can happen when two strangers share a home in the French countryside one is a workaholic and the other likes to enjoy life The two

worlds collide and passions ignite. Conner Preston is exhausted, only wanting to crawl in his bed and sleep for many hours he travels for his job and has a few days before his next assignment so is stopping at his home in France to relax. What he does not plan on is finding a stranger, lovely as she may be, in his bed. Josie Marchpane was told by her partner Abigail, that she needs to go away for awhile since she is scaring the others in the office with her demands and Abi is afraid she is going to have a breakdown. Josie knows she is a bit of a workaholic and is very driven but she wants to prove herself in the business world. She always feels less than adequate around her sister Maddie who is a famous genius that their parents dote on. The sparks fly when the two compromise their stance and share the house, all the while knowing that the attraction between them would go nowhere. They both have family issues that prevent them from taking the relationship beyond a no strings fun and relaxing vacation, but you never know what the heart wants. Complete review at Ramblings from a Chaotic Mind. Copy from author for an honest review. Life is a train of events tied together, full of moments in time and connections to people. Sometimes those connections are meant to lead us on a path with others. Josie is relaxing in a farmhouse in the beautiful French countryside, at least she is until an unexpected guest turns up. She finds herself confronted with her business partner's brother, who just happens to co-own the place she is staying in. I enjoyed the playfulness between the two characters. The way they interacted with ease, were able to laugh and have fun with each other. Sometimes people just connect naturally in a way that is inexplicable. Connor started off regarding Josie as an irritating disruption to his holiday, but now he finds himself attracted to the spunky distraction. Unfortunately he has no plans for any relationship regardless of whether it be short or long term. Who wants to be nothing than a week long fling with no strings attached, no questions and all the benefits. Josie certainly doesn't find his attitude towards potential love interests and family members very inviting. Connor teaches Josie to let go, to understand that the world will still go on as usual even if she doesn't work like a madwoman 24/7. It is a snug little story with a fleeting moment in time and a string of coincidences changing the paths of two people. I received a copy of this book courtesy of Harlequin UK and Mills Boon. No guy wants to come home after weeks out on the road to find a beautiful naked woman in his bed, no wait that's a lie, most men do. But not Connor Preston, he's tired and totally beat, all he wants is a good night's rest after weeks of very uncomfortable sleep. But instead of his nice clean, cool sheets he finds a very naked and very tempting Josie wrapped up in his sheets, oh and the sheets are no longer clean either. Wish just makes the situation worse, but it being late Connor reluctantly agrees to take the couch for the evening and have a stand off with the stranger in his bed in the morning. But when morning comes Josie refuses to leave, instead telling him she calls dibs on his house. Connor of course goes from slightly annoyed to outright furious and so begins the tumble of wits, conflicts, sexual energy so electrifying the pages nearly went up in flames and the journey to finally learning to stand up and fight. I absolutely loved, loved, loved this book. It

was so unbelievably perfect in every way it felt as if I was reading a best seller before it has even come close to the shelves The author s characters were stunning and extremely realistic they not only creep into my heart but deep into my soul I loved how the author showed both the characters as feisty yet, also cautious of actually taking steps towards achieving goals they do not even really realize they need It showed them both as I recon a lot of us are in real life, we don t realize what is is that we need to do until it hits us with such a force it sends us down a spiraling hill that it seems impossible we will be able to get back up For some it is too late but for others it is just the push they need.The backdrop settings were so exquisite I was blown away by the author s vivid and intense descriptions, I could actually touch and hear each and every little detail being given The dialogue was one filled with intense reality and left a very big impact on me as reader.I m taking away a message of life has a way of bringing someone into our lives to show us just what it is we are meant to be doing, yet if we do not stand up and take notice we will soon be trying to claw our way back up the the hill, and as we all know without help it will take much longer or not happen at all Someone comes knocking or in the case of Connor and Josie, ends up sleeping in your bed, pay attention before it s too late, life is trying to send you a message.I HIGHLY recommend this read for each and every single romance fan It was sweet, sensual, incredibly sexy and just plain amazing 5 5 star review Getting her into his bed was easy, the trick is to make sure she stays there No guy wants to come home after weeks out on the road to find a beautiful naked woman in his bed, no wait that s a lie, most men do But not Connor Preston, he s tired and totally beat, all he wants his a good nights rest after weeks of very uncomfortable sleep But instead of his nice clean, cool sheets he finds a very naked and very tempting Josie wrapped up in his sheets, oh and the sheets are no longer clean either Wish just makes the situation worse, but it being late Connor reluctantly agrees to take the couch for the evening and have a stand off with the stranger in his bed in the morning But when morning comes Josie refuses to leave, instead telling him she calls dips on his house Connor of course goes from slightly annoyed to outright furious and so begins the tumble of wits, conflicts, sexual energy so electrifying the pages nearly went up in flames and the journey to finally learning to stand up and fight I absolutely loved, loved, loved this book It was so unbelievably perfect in every way it felt as if I was reading a best seller before it has even come close to the shelves The author s characters were stunning and extremely realistic they not only creep into my heart but deep into my soul I loved how the author showed both the characters as feisty yet, also cautious of actually taking steps towards achieving goals they do not even really realize they need It showed them both as I recon a lot of us are in real life, we don t realize what is is that we need to do until it hits us with such a force it sends us down a spiraling hill that it seems impossible we will be able to get back up For some it is too late but for others it is just the push they need.The backdrop settings were so exquisite I was blown away by the author s vivid and intense descriptions, I could actually touch and hear each and every little detail being given The dialogue was one
