This was an emotional, and at times fun journey of a husband and wife. When they married each other, they were in love, and took pleasure in the simple things in life. Some of the best memories that shared were talking, and laughing during a thunderstorm. They both wanted to have a baby. Jessica ended up having two miscarriages. The stress, and pain was too much for the couple. Kade left, thinking that Jessica would call him. She thought he would call. Foolish pride kept them apart. After a year she called Kade and asked for a divorce. They made arrangements for Kade to come see her, so they could talk about it. Kade got to her street and saw flashing lights, and an ambulance. His heart sunk when he found out Jessica's house, and business was broken into, and she was attacked. Sometimes in life, bad things bring two people back together. This was the start of two people, finding a way back to one another. This was a sweet story. Both had foolish pride, but they learned to see what the other was going through. As always I would like to thank NetGalley and Harlequin for providing us with a copy of this book so that we could bring you this review. Though Jessica and Kade have been through a lot together, a part of them didn't know how to deal when their lives were turned upside down. So what do they do, they give up on each other and in my opinion on themselves as well. Instead of fighting forward to make things better they go their separate ways. Now life has forced them to face those things once. Can they look at each other once again and finally resolve things? There were times where I wanted to

knock some sense into both of them especially Kade, but I also understood that they were each dealing with grief the way they knew how. Might not be what I thought was the right way, but it was the best way for them. Now we all know that I love second chance loves and this definitely falls into that category, because not only do they get a second chance at love but they get a second chance at happiness. This book really does have the hidden message about how things never work if you force them. I have this book 4 sweet kisses Happy Reading Adr Un Harlequin sencillo de esos que ayudan a despejar la mente de vez en cuando. A Self Absorbed Hero Whose Cup Runneth Over With Male Pride 2.5 3.0 STARS Jessica and Kade Brennan were married and deeply in love. until they were unable to successfully fill their home with children. This tore the couple apart and Kade left and abandoned Jessica to grieve the loss of their two babies alone. Kade has thrown himself into his business so he didn't have time to think of or miss his wife. His over abundance of male pride would not let him grieve the loss of their babies and support his wife through this difficult period of time. He was troubled that she cried and thought crying and grieving were weaknesses so he was a total scumbag jerk, not very likable in the least, and left his wife to deal with the emotional upheaval by herself. It was horrific I have never known or read about a man who was so consumed with pride that it negatively affected every aspect of his life. Jess called Kade to set up a time for them to get together and discuss the division of their assets so they could finalize their divorce. They had been separated for a year and Jessica was ready to move on and begin adoption proceedings asap, again alone. When Kade shows up to meet with her he finds the place surrounded by police and ambulances. She had been injured in a burglary, broken her arm, which now greatly limits what she can do. Kade decides to help but he makes sure she realizes he is not happy about that fact. Talk about someone whose persona was so much important than how he truly felt. It got old very quickly and I was hoping it would move on post haste it did not. Yes there was a sweet HEA and that is the only reason I gave it a two and a half to three stars instead of two. Would I recommend this book I will answer by saying that I would certainly not read it again.

Romance

*The
Pregnancy
Secret*

Cara Colter

This review first appeared on my blog did I think 3 Stars Would I recommend it I would recommend this book to someone who wanted a quick, easy read Honestly this book didn't live up to my expectations, there were parts I really liked, and then there were parts that I didn't. I think what made it fall short of my expectations was that I felt really disconnected with the characters When I read a book I like to feel what the character is feeling and I didn't get that with this book. Overall, it was a good book, it just didn't live up to my expectations. Thank you Harlequin via Netgalley for providing me with this book in exchange for an honest review So I must admit that one of the reasons I had chosen this book was because not only was it free for review but that one of its main characters had the same name as mine Now on to the content of the story Overall I thought that this book was short, sweet and simple Not much drama which was what I was hoping for Now as for the title I felt like it was misleading, I only this because it wasn't until it was nearly maybe 75% into the book is where she gets pregnant Just based on the title I thought that this story was going to be different from what it actually was I enjoyed seeing them come together after some and talk about their history and slowly solve the problems that once tore them apart.

.DOWNLOAD ? The Pregnancy Secret ? Back In Her Husband S Arms Jessica Brennan Couldn T Wait To Marry Gorgeous Kade And Fill Their Rickety House With Children Not Being Able To Live That Dream Tore Them Apart CEO Kade May Not Have Been Able To Fix Their Marriage, But He Can Finally Fix Up The House Except Working Together Only Rekindles Their Love One Night With Her Husband Can T Hurt, Can It Unless It Has Dramatic, Life Changing Consequences I was given *The Pregnancy Secret* for an honest review by Net Galley Jessica's husband walked out on her and in the year that he has been absent she has rebuilt her life as best she can When she calls him to discuss divorce and ends up the victim of a robbery he steps up to try and fix everything including the house they once shared Now if Kade can just figure out that his relation with his wife is important than his stupid pride he may actually be able to save something he values. The entire review can be found with all the ratings *The Pregnancy Secret* was a heartwarming effort from Cara Colter The main characters of the story become so involved with what they don't have and what they can't give each other, that they fail to appreciate what brought them together in the first place I loved this story because it takes an accidental event to bring this couple full circle Enjoyable read that tugs at the heartstrings Received this book for an honest review. Me ha gustado más de lo que esperaba. El AMOR lo puede todo
