4 stars Just a small note, this review is geared toward my tween advisory project, so it will be written a bit differently than my normal reviews. If you are a friend and would like to see the

tween advisory blog, please pm me Thanks Maya is a top notch honor student at her high school and works diligently at maintaining her GPA in order to earn a scholarship to Stanford Her schoolwork and job pretty much keep Maya on a very busy schedule Maya also works with her younger brother after school in her parent s Thai restaurant When her parents go out of town, they leave Maya in charge of the restaurant After a complaint from some incredibly rude customers and a rookie mistake, Maya finds her parents restaurant slapped with a 10,000 fine They say when you re about to die, your entire life flashes before your eyes Well, now I know that when you re about to kill someone, the same thing happens Except that instead of your entire life, it s just the moments you had spent with that person, and as every moment flashes by, it now contains a chainsaw Worried about being sent off to Thailand forever if her parents find out, Maya concocts a scheme to earn the money to pay the fine Maya will do another teens homework for money Camden to be specific, the rich kid playboy who has been on her case to tutor him for a long time As time goes by, the two spend time together, and Maya ends up getting paid to do homework for other students in her class and she is beginning to become overwhelmed I thought you people were supposed to be good at math Yes, my people all do math for fun, while simultaneously dry cleaning our karate outfits and giving each other manicures and pedicures, all in between our numerous piano and violin recitals, This was a fun, clean read for tweens on the older side of the 9-14 age range I adored the love hate relationship between Maya and Camden, their banter was one of the best parts of the book It s a classic story of the unpopular smart girl with the popular playboy, but oddly it worked really well Camden was sort of a bad influence on Maya, but in his own way he was understanding and supportive when no one else around Maya was He also had her back when things fell apart again, when nobody else did There were parts of the story that seemed really unrealistic, like the homework scheme that the whole school went in on, but it added to the charm and humor of the story Cherry Cheva has a very strong comedic voice that shines through in this book The heroine of the story being Thai American and not another caucasian main character was beyond refreshing in a white washed genre Everything s gonna be fine, okay Maybe for you Some of us are gonna be living out the rest of our lives in a rice paddy wearing a big hat Wow, you get racist when you re panicky Shut your pathetic, useless mouth And bitchy There were a few words used that were definitely meant for an older tween age, most sources suggested 7th grade and up which is around twelve years and I would amend that to thirteen or fourteen year old tweens, or ones that are mature There is drinking in this book, but it is not highlighted, glamorized or done in excess, it s simply a fact that teenagers do drink This book also warns younger readers to stay true to yourself and to never ditch your friends While some things may seem glamorous, it s those people who stick with you that are important to keep in your life It s also about sticking to good morals and knowing that doing something bad in order to do something good, doesn t make it okay Thanks for the rec Feifei (((FREE))) ? Question What Do You Get When You Take Overachieving Girl Insanely Cute Guy Massive Fine Scheme Involving A Little Dishonesty And A Whole Lot Of Cash I Ve Always Been The Good Girl Working Seriously Long Hours At My Family S Restaurant And Getting Straight As And Camden King Was Always Just That Hot, Popular Guy I D Pass In The Halls, Whose Ego Was Probably Much Bigger Than His Brain I Didn T Think There D Ever Be A Reason For Us To Actually, Like, Interact Then Again, I Never Thought I D Mess Up So Badly That My Family Might Lose Our Entire Restaurant If I Didn T Come Up With A Ton Of Money, And Fast So That S Where Camden Comes In He And His Evil Genius Plan To Do Kids Homework For Cash I Know Cheating S Wrong, But It S Better Than Being Dead, Right Which Is What I D Be If My Parents Knew About What Happened I Never Expected Things To Spin So Far Out Of Control Or That I D Be Such A Sucker For Camden S Lopsided Grin Or That Falling Apart Could Be The Best Thing That Ever Happened To Me Answer The Time Of My Life 3.5 Stars I was in a mood for something different and this was a bit different than what I normally read And I liked it As an asian, I can identify with the Asian family dynamics like the super strict parents who doesn t trust you as far as they can throw you not very much How school and grades were the most important things Maya was smart and sometimes really funny I liked her It was a bit hard though to read about her spiral into doing all the wrong things she did It was like watching a train wreck to me because never in my straight laced high school years would I have ever had the nerve to pull off what she did But honestly I thought the reckoning for all she did was going to be much worse And of course my romance loving self liked that the boy in the end didn t turn out to be a royal ass I liked the ending It was an interesting read Thanks Feifei

She's so Money was such an amazing read I loved the humor, the witty comebacks, and the creative outbursts a prostitute, a rice patty farmer, shipping you off to Thailand's boarding school My friend had asked me to read this book for fun but at times I just had to stop to grab some sticky notes to save that page or quotes because they made me laugh out loud so much Here's a small sample of some that I absolutely adore The girl is fourteen and has a rack as big as my head Or, I guess, two of my heads If you want to get technical And another one, I smiled back with an expression that I hoped said, I understand, and not, Your husband's a douche, There's a lot but you'll have to buy your copy for that P There was also this one part where Maya's mother had told her a story about this family they knew in Ohio that I loved It was something that my parents would do exactly if I were in her position exaggerate a small situation to persuade me not to do something, where she was free from the corruption of America XD another line that I loved I would've liked to see the romantic aspect of Maya's and Camden's relationship developed some though I guess in my mind there was a gap between from when it went from business partners to dating, a bit rushed. Also, the punishment that Maya received from this little adventure should've been a bit severe in my mind Made up this huge cheating gig Well that will cost you one shiny little penny mister oh, and a 3 day suspension D Maybe it's my opinion and whatnot, but I didn't think she should've still been accepted into her college of her choice at least. Overall A really hilarious read that had me waking up at 7:30 AM just to finish when it wasn't even a school day Cherry Cheva is hilarious She's So Money is a kick booty read Lauren Myracle I cannot agree with this quote even well I would've changed the booty into something less appropriate P I eagerly waiting for Cherry's next YA book Pick your copy up if you want to understand everything I just said XD Maya has always been a good girl I wish I had her drive Not only does she work every night at her parent's restaurant, and tutor students at her school, she also has an unbelievable GPA All Maya wants to do is make it through the rest of her year with her GPA intact and run away to Stanford in the fall And everything seems to be heading in that direction, well everything was headed in that direction until she hit a huge detour When her parents leave town for a wedding, they leave Maya in charge of the restaurant Everything goes as smoothly as possible except for a couple of crabby customers, but hey it happens What Maya wasn't expecting was a visit from the health department that ends in a 10,000 fine Fortunately for Maya her current tutor student happens to be none other than Camden King, the mega popular super hottie of her school When he mentions to Maya that he'll pay her a hundred dollars to do his homework, she dismisses him, but now that she needs ten grand and in a hurry, it is starting to sound like a good idea. This book was so fun, and too cute I loved Camden and Maya, they cracked me up with their sarcastic and smart ass comebacks I was laughing out loud throughout the book Cheva's writing was totally refreshing I loved her understanding of young teen voices I absolutely recommend this book, it is a fun and quick read You should definitely go pick up a copy I'm looking forward to reading by Cheva. This book is hilarious I laughed so much

when I was reading this. Maya's problems start when her parents leave her and her brother in charge of their family owned Thai restaurant for the weekend. When Maya is worn out and tired by Sunday, she decides to delay the clean up until the next day, after school. When she arrives, a health inspector is there with a 10,000 fine. In order to pay for that fine, she masterminds along with Camden a multi thousand dollar cheating ring and risks jeopardizing her scholarship to Stanford University. The characters were hilarious. Maya was my favorite. She always had a comeback ready to shoot back whenever she was with Camden. I loved all the characters. I was able to see them through Maya's eyes and saw what she thought of them. Cheva unequivocally accomplished a teenager's point of view consistently, throughout the book. Cheva was able to have a perfect POV to go along with a perfect scenario. With compelling characters, lifelike dialogue, and a fascinating plot, *She's So Money* will definitely attract the attention of teenagers who like clever, fun comedies with a touch of witty, devious characters that will easily make you laugh your heart out. I know I did. *She's So Money* has definitely earned its A. Maya gets straight A's in every class. After school she tutors for money and help out at her family Thai Restaurant to earn money. Not like small rich popular snob in her high school who sit back, relax and tease all the geeky and ugly people. Well, Maya is about to get a help from the king of the snobs Camden. With the brain of Maya and the looks of Camden they are gonna pull up a scheme that will help both Maya and Camden. Maya used to be Ms Goody Two Shoe until Camden the hottie interrupted her geeky life. From the day her teacher assign Maya to tutor stupid hottie Camden. But the first day of tutor didn't turn out the way you think it seem since that day on Maya's life had various of visitor coming in and out. Mostly, LOVE, SCHOOL WORK the difference between the good and bad. Maya's parents was out of town but Camden and his friends are ruining everything. But what actually destroy Maya's life was the Health Department Letter. Maya owes the Health Department 50,000 she can't pay all of this within a month she needs help not just from anyone. Maya is gonna ask for help from the rich snobby Camden. Maya is gonna help Camden cheat for the MONEY. Do you think they will get caught. The story of a scheme leading into love between the geeky and popular is beyond awesome. Thanks to the fabulous author Cherry Cheva. Cherry Cheva isn't some random author but she actually writes the script for a funny show we watch on television. GUESS It's family guy. All those hilarious episode on Stewart, Peter, Lois was based on her script. What a coincidence. 1 geeky girl 1 hottie the hilarious writing of the author. romance 1 bad scheme. FATABULOUS. Blog Twitter Instagram Full review potential spoilers alert to my sopho year of high school, aka the first year I began to write book reviews. One day I decided to ask for donations of books for my school, as I went to an alternative school and the head teacher there is an absolute angel. Through the years, it was obvious the bookshelf in one of our classrooms wasn't growing, so I figured I'd surprise my teacher and classmates with some new books. Cherry Cheva was one of the first authors to offer a book to donate and thus began my lovefest with *She's So Money*. After a week or two of it sitting

on the shelf in our classroom, unread simply because no one was doing reading assignments until the end of the semester, I picked it up and began reading it on my breaks between classes and lunch First, I fell in love with the colourful cover Shallow, yes Well who cares, really If something gets you reading, it gets you reading And this was honestly one of the funniest and smart novels I d read in a long time It was a breeze and it quickly became my new favorite I loved it so much, I soon bought my own copy and one for my best friend. I really liked it It kept my attention for the whole 5 hours it took me to read it I would also like to beat my friend over the head who made me read it Awesome book though, so I guess at least she didn t steer me wrong Did I mention I love Camden I liked it Definatly a girl book Good but not great.
