!DOWNLOAD PDF ? Lukes Cut (Hells Eight, #8) ? He S The Last Bachelor Standing Among The Men Of Hell S Eight, And He LI Settle For Nothing Less Than Passion

Unencumbered By Wife Or Family, Luke Bellen Is The Obvious Member Of Hell S Eight To Lead A Treacherous Trek Across Comanche Territory But Luke Suspects He Will Never Know Another Minute S Peace When Photographer Josey Kinder Joins The Wagon Train Whip Smart Josey Has A Voluptuous Figure, A Sunny Disposition And A Knack For Getting Into Dangerous Scrapes In Pursuit Of A Perfect Shot She S Beyond Maddening Luke Thinks Josey S Too Young, Too Sweet To Be Despoiled By The Rough Life And Hard Bitten Land He Loves But Independent Josey Won T Let Any Man However Commanding Decide What S Best For Her Beneath Their Playful Banter Is A Powerful Current Of Lust Pure, But Not So Simple If Only Luke Weren T So Damned Proper, He D See That The Years Between Them Don T Matter A Whit, Not When A Single Touch Can Set Them Both Ablaze Josey S Hell Bent On Keeping Luke In The Picture If The Vengeful Bandits On Their Trail Don T Find Them First Received 4 stars RT Book Reviews

Miniserie This wasn t as bad and as smexed up as some of the the others in the series to me and had a bit substance and better editing than in the past. Luke Bellen is the last bachelor of the infamous and dangerous Hell s Eight and seeing all the happily married couples around him has made him feel restless Unlike his friends, he doesn t feel ready for settling down on the ranch, but that doesn t mean he doesn t feel a little lonely when he sees the closeness the other couples have Josey Kinder has spent most her life for apologising for existing and doing her best to become invisible, however, heading into the rough and beautiful terrain of the West calls to the wilder side of herself that she keeps hidden Luke also seems to be chasing the mouse out of her as he seems to simultaneously provokes and cares for her However, as they travel together through dangerous territory Josey realised it isn t only her heart she is risking, but as bandits continue to pursue them, maybe her life as well.

Three years Three years I have been waiting for this book, in what I assume to be the final book in the Hell s Eight series, where we finally see the last lonely bachelor taking down by love Was it worth the wait Those long lonely three years Honestly, I am not sure I liked this book and as someone who doesn t like to leave things unfinished I am glad we now have a full and complete set of paired up Hell s Eight men However, if I take that sense of tidiness and order away and look at the book in isolation it was a good read but probably not worth waiting three years for.

Luke s Cut also felt strangely un Sarah McCarty like, I am used to her red hot, erotic historical westerns, which is what I was expecting in this book But, this book definitely dialled down on the sexiness scale, she didn t even have her customary anal sex anyone who has read any amount of McCarty will know what I mean, I am pretty sure it happens in EVERY book she has written and I missed it Not necessarily the anal sex thing, but I loved how erotic these book were, so in comparison Luke s Cut felt a little Luke warm haha did you see what I did there Sexiness aside, I did like the romance between Luke and Josey, there was some good back and forth between them and I enjoyed seeing Luke help bring Josey out of her shell I also liked that Josey wasn t just a damsel in distress type, despite having no survival skills she some how managed to hold her own and keep Luke on

his toes Which, is exactly what Luke needed, unlike the others in Hell s Eight Luke doesn t want to settle down, he hasn t quenched his thirst for adventure yet and luckily neither has Josey, another reason why they are perfect for one another. Luke s Cut although not my favourite book in the series, was a nice end to the Hell s Eight series I am keeping my fingers crossed though and hoping that McCarty will start a new spin off series for the Montoya Ranch That way I can still see my Hell s Eight honey bunnies AND see some of the sexy Montoya men ARC provided by publisher Reviewed by Suzanne Don t want to miss any of our posts Subscribe to our blog by email Reading Luke s Cut makes me want to reread these eight books so much There are some of the BEST romances I ve ever read If you love a bit of historical, a lot of adventure and a ton of intimacy and banter, you need to read each couple s story of the Hell s Eight series I loved how Luke s Cut went over the beginnings of Hell s Eight and gave such a great story for Luke I ve been watching for this one to come out I love Sarah McCarty s writing so much and love her Shadow Wranglers and Promise series as well This is the best pet name ever, not just darlin , but every time Luke called her my darlin I loved him Her start shivered up his arms You, my darlin , need to understand something What I m no longer being your friend Josie was the young, talented photographer that came in from the east to the Hell s Eight ranch for a wedding shoot She also came along on the trek out to Sam s ranch for the birth of his and Bella s twins Luke was annoyed by Josie greatly from the start of this trip He called her flighty, too pretty, too aggravating and then called her a mass of contradictions where even her hair was contrary because it was neither blond, nor brown, nor red, an ever changing mix of the three Suddenly he takes it upon himself that she needs a caretaker I love how that grew for him and I loved that Josie s backstory made her need his care and needed to understand love, real love And these Hell s Eight men know just how to give it right Their banter was adorable Luke What have you got against obedience Josie It s not part of my plan He hud her, I see Ahhh, watching Josie s safe, life plan crumble and her awe of Luke grow made this a great read I also loved that Josie got a lot of comfort and outdoor expertise from a certain western novelist in the book that I won t name It shows that reading does help you in life Ok, ok, ok Was just informed this book is out now, today OMG Yea Going to the store to find it tomorrow, ASAP, stat Posted on Les Romantiques Le forum du site Reviewed by Fabiola Review Copy from the Publisher Luke s Cut is the 8th and last volume in the Hell s Eight series by Sarah McCarty It s a very peculiar series with some very dark volumes and other light Strangely or not lol , my favorites are the lightest ones Luke s Cut is indeed the lightest volume and I think she concludes it perfectly. The Hell s Eight series is an addictive one I discovered with Sam and Bella s story in Sam s Creed, and I read it totally The author succeeded perfectly in interesting the reader to her story and her universe. The story takes place sometime after the end of Ace s Wild my review is here At the end of this volume, I had or less thought of another heroine for Luke and I said in my review I hope I m not mistaken Because if it s not her, I think I ll be really disappointed Well, Luke s heroine is

totally different, and yet I'm not disappointed LOL When I say the author is very talented, I don't joke. So we discover a new female character Josie Kinder, for whom the hero has had a very strong attraction for sometimes now, to which he doesn't want to yield Luke Bellen saw all his friends get married in the course of the series, and he feels it's time for him to think about what he likes doing go on adventures And why not find someone for himself But before that, he has a last mission for the Hell's Eight, protecting a convoy made of Tia, the woman all the Hell's Eight consider as a mother And of course Josie will be part of this convoy. Over the days, our heroes have and difficulty resisting to their attraction, however the love scenes arrive very late in the story First because Josie is illegitimate, and she grew up with the idea she shouldn't let her desires and dreams talk Also, even if she has strong feelings for Luke, she dreams of freedom and doesn't want someone to thwart this project So she must make choices. Luke as for him takes really quickly the decision to keep her, but he prefers to give her space, all the while never hesitating to relentlessly woo her to show her he wants her. Luke and Josie make a beautiful couple with the same aspirations, but they don't realise it straightaway Their attraction is palpable in the book and the evolution of the love story is very beautiful. As for the broached themes, the author tells us about photography while using technical vocabulary showing she's done good researches Sarah McCarty also tells us about the beginning of C section, one of the biggest progress regarding birthing. To conclude, Luke's Cut is a volume to read Fans will perhaps find it too light, but for me it was great like this.

“You will be hooked!”

SARAH
McCARTY

Luke's Cut

final return to the Western Frontier with the last man of the Hell s Eight to finally find his woman Luke Bellen is feeling a bit nostalgic Both for times past and a little envy that all of the men he went through hell with as children have all now found their mate and are settling down and starting families It s due to this he agrees to accompany the woman that took them in and raised them to the Montoya Ranch to help with the delivering of Sam and Bella first child As this requires traveling through Comanche territory a team of men are needed for protection So along with men Sam sent from the Ranch, Tia and her husband Ed, and the surprise addition of photographer Josey Kinder the wagon train sets off One thing I ve always through this author does beautifully is her descriptions of the wild west and a realistic view of how tough it was living in those days The group encounter a storm and tornado along the way and when you re out in the middle of the frontier there is no warning or even places to take shelter you felt like you were experiencing it right along with the characters intense and scary Luke and Josey as with most of the Hell s 8 couples couldn t be different That is another thing that has always set this series apart is how she can take two people from different walks of life ethnicity, religion, tragic pasts and make them work together I enjoyed this story and also getting to experience the birth harrowing as it was of Sam and Bella children My only hope as I finished this book and its a big one is that the author would do one book bringing all the Hell s Eight back together or at least giving us an update on all 8 couples We got a glimpse of a few through this book but I would love a wrap up book It s been an incredible journey since first meeting Caine Allen and the men that make up Hell s Eight. Luke s Cut is the eighth book in the Hell s Eight series and it is a great addition to the erotic historical romance series Luke Bellen is the last one who is still single and wonders if he is meant to settle down He s seen big changes at Hell s Eight ranch and can t put his finger on it but he s looking for something What he can t figure is why the pretty photographer has caught his eye Josie Kinder is here to photograph her uncle s wedding and is so contrary to Luke that every move she makes somehow aggravates him She senses it too and wonders what she could have done to get under his skin Things go from prickly to hot and sensuous when they are both trekking across Texas in Comanche territory, and Luke sees there is to the woman and he likes it. I like the pairing of Luke with Josie because they were both were what the other needed They may be opposites in many ways but they both have an artistic side of them and they both appreciated it in the other He also saw a lusty, passionate in her that was dying to get out and he had no problem bringing it out in her It might have been rocky in the beginning but she grew on him and he found out that she was stronger than he originally predicted She s an easterner and not use to the western ways and the harshness of life in the wilds of Texas Somehow she showed gumption when faced with the bandits, a tornado and the Indians What she just needed is a bit of soul searching to see what she wanted in life and if she could have it all Thankfully Luke showed her it can be easy if you trust another with your heart It has been a pleasure reading this series and learning so much in the process

Sarah McCarty's writing shows the reality of the west in the 1800s and the conditions for women, all in a historical romance story. It was good to see the other characters from previous stories, and see the big changes happening especially for Sam and Bella. My only regret in this story is that there wasn't an epilogue. I felt like it left me hanging there in the end. It would have been nice to see a glimpse in the future and how the Hell's Eight men are doing with life and their loves. Review copy provided for a voluntary review. As this one started out Luke was a bit melancholy, it seems like he was being left behind with all of his Hell's Eight mates finding their women. It didn't help that the friend was getting married to a woman he hoped would be his. I think Luke knew this woman wasn't for him, but he wanted what his friends had. I wasn't sure about Josie at first, but as the book went on I really liked her. Loved how she kept Luke on his toes and he threw Josie off. When Josie could relax she had fun with Luke during some crazy events realizing that she could depend on Luke. Luke seemed to really like Josie and her unusual ways to look at things. I loved that when push came to shove Josie chose the right thing and did so in a way that Luke was sure she was also choosing him.
