So today, we have Blowjob from your Stalker by Patient Lee I got this book when it was being offered for free, so hurray for free Free books are the BEST books It s for sale on for

0.99 which is a good deal, because the story itself is rather short. It has a decent length excerpt/teaser for another book at the end. This story is basically a letter from a dude's stalker who writes him but doesn't send the letters. She saw him one night and was instantly in love, but didn't talk to him that night. She got to know him through mutual friends later yet still hasn't really talked to him or asked him out. Instead, she writes obsessive letters and doesn't send them. And does drive by his house. The title of the book pretty much details the whole of the story; this letter details a blowjob she imagines giving him. This is a very odd story, and I enjoyed it, but I had a problem with it which I'll detail later. For now, the good stuff: The description of the blowjob was amazing. A MAZING. Obviously, I'm not a dude so I can't vouch for the male side of things, but from the female side of things. Yeah I mean, yeah Patient nailed it from the woman's POV. It's an extremely fun, extremely sexy, extremely pleasurable thing to do for your partner and yourself and the description here is fucking awesome. I was seriously in awe of this woman's writing chops. The story evocative and here's where I get to the dubious/bad. It's short, and while that's usually not a problem, here it is. This story BEGS for it to be like opening up in the middle of a book, reading an excerpt which made you wonder how they got there, and where they're going and then closing the book and never reading it again. I'm left to wonder what happened. Did she ever send it? How long had she been stalking him? Did she ever escalate? There is a whole Single White Female-esque story here, which the written prose just scratched the surface of. This could be a thriller novel, a mystery novel, an erotica novel; the potential here is amazing and unrealized. It's frustrating when you find something like this I want to read, and while usually this is a good thing because that's what all authors want, here it leaves me frustrated. I know there's no sequels or prequels. It's just a quick segment, a slice of someone's life. An interesting/potentially crazy someone's life. Is she crazy? Is she actually stalking him? I want to know. Like I said, normally brevity in erotica is not a thing to be frowned upon, but in this case, Patient raises so many questions. At least for me it was terribly distracting. The sex was hot, the description was hot, the prose was tight and well-edited. Even if there were any mistakes, I didn't see 'em because I was so into it. However, when I got to the end and realized it WAS the end, I was disappointed because so many unanswered questions. If she ever expanded this especially if she went the crazy Fatal Attraction way, I would be all over this in a heartbeat. As it is, sometimes it can be too short. However, if you just want a quick, crazy hot read of a blowjob blow-by-blow, this is for you. If you're like me and want meat in your story, you may end up like me and be disappointed. I'd still heartily recommend it, and give it 7 of 10. Crazy stalker letters: does she include hair or nail clippings? Does she have a shrine at home? Seriously, it's a testament to her writing ability that I'm still thinking about these things. Since this is Goodreads and they do a five-point system and I always round down, it's 3 stars here but really 3.5. We all get to enjoy the voyeuristic thrill of reading someone else's letter in this very short erotica. Probably one of the best blowjob scenes I've ever read. Hands down. And, yes, I have read my share.

What I love about this is its voice. She's confessing her obsession, revealing the one-sided history of their relationship, and giving vivid imagery to her detailed sexual fantasies. It's creepy, but hot at the same time. I tell you what, if I was Steve and I got this letter, I would give that girl a call. Quick, dirty and fun. Put a smile on my lips, both above and below. Patient Lee has a very refreshing style that reads without any effort, the mark of someone who knows her way around words. First off, I love this cover. Covers are key, and this one does the job. Now for my review. Spoilers Ahead. I don't usually like 1st person, but it worked well for the story being written in the form of a letter. And I have to say, the idea of making this story a personal letter was genius. It was hot, weird and sexy and weirdly hot and sexy at the same time, which I didn't even know was possible. As for the writing, it was great. Truly, I didn't notice one problem. The blowjob was vivid and f*cking hot. Believe me, I was near faint a couple of times. Had to take a break and breathe. The way the writer described foreskin, a tongue doing magical work, and a sizzling cumshot, was just sizzling. Sizzling is my new favorite word, so if you see it a lot, well deal with it. The problem I had with the story was that each segment was broken up with 3 3 3 3. What the heck was that supposed to be? But, that was literally the only problem. Seriously, this author has some chops. I will admit though that I didn't read the bonus excerpt as I wanted to focus on the main story. I bought it, I'll read that excerpt and the author's work in due time. Trust that to be true, as she has a new fan. The writer is beyond talented and I can't wait to read the rest of her work.
