An absolutely scrumptious cookbook filled with dreamy desserts and page licking photos. Very sophisticated was my first impression. I'm a novice baker. I basically make cookies and lemon poppy seed bread and these recipes definitely seem geared towards those who can create magic in the kitchen. That would not be me. However, if I had a neighbor who had mad baking skills, I would gift this book to them with some gorgeous bowls and wooden spoons and make not so subtle hints that I would like to apply to be a test kitchen taster.

Johnny rocks the pastry scene with an intro to molecular gastronomy in the pastry world. I've been waiting for the sequel for way too long. I love this for the plating and fancy stuff exactly what Dave HATES. This is something that I will recreate at home, but not with the fancy plating. I think I pulled at least 20 recipes to try. I'm super intrigued by using invert sugar to make ice cream. Chef Johnny Iuzzini is a genius. What Johnny does with food is what Val Emmich does with music.
