Phoebe Jones is off on the trip of a lifetime, a year out travelling Her friends don t think she will go through with it, heck, even Phoebe doesn t think she can go through with it, that s

why she arrived stupidly early at St Pancras station to await her train to Paris, so nothing can make her change her mind. She didn't expect there to be a delay with her train, well all trains heading from her station actually, a four hour delay This is not good, four hours gives Phoebe time to think and thinking is bad when you're not sure you can go through with your plans. That is until she meets Sam Sam is a musician on his way to Scotland His train is delayed too and after a few joking moments between the pair, they settle in a cafe awaiting the trains to start running again What they didn't expect was for fate to intervene and for them to fall for one another in just a few hours. With plans already made, the pair decide that they both should continue on their journeys but if they believe the spark is real then they are to meet again in a one year back at the station With twelve months to get through and plenty of travelling, will the two meet again or was this just a fleeting moment never to happen again

The Day We Meet Again is a beautiful book told in the first person and dual narrative via alternative chapters, clearly labelled I'm a believer in love comes when you least expect it, or when you are not looking for it and neither Phoebe or Sam were looking for love that fateful morning They both were setting out on journeys of a life time, Phoebe travelling and visiting places in her favourite book, Sam to discover about his father who left when he was just a child. The book was engaging and had me glued to the pages Both of the main characters were likeable and interesting and their stories heartfelt, although I enjoyed Phoebe's chapters slightly as I loved reading about the places she visited Neither had a straightforward twelve months, there were plenty of hiccups within them and I was keeping everything crossed that they would meet up again as they seemed perfect together. I was so engrossed in the story that I read it in just one sitting as I didn't want to put the book down, this certainly doesn't happen often to me *The Day We Meet Again* is simply an amazing read and if you are a fan of romance novels then this is one to add to your list. www.bookread2day.wordpress.com Twitter bookpage5Wow Miranda Dickinson tenth novel in ten years after her first novel flew out into the world Do you believe in love at first sight Do you believe in fate Phoebe Jones is getting the train to Paris Musician Sam Mullins is going to Isle of Mull All trains have been cancelled, but no one seems to know why By accident or fate Phoebe meets Sam who after talking to each other both decide to go for a coffee together Oh that's when they fall in love The kiss changes everything. Before they both go their separate ways to their train, they make plans to meet back at St. Pancras station in exactly twelve months time, when they have had their adventures and made their journey But will they finally meet again in a year's time if they still feel the same as things change and people change *The Day We Meet Again* is a beautiful love story, with Sam and Phoebe chapters decided to each in turn throughout If you're going to read a love story this has to be one of them.

THE LOVE OF
YOUR LIFE

THE ADVENTURE
OF A LIFETIME

Phoebe and Sam meet at St Pancras station after their trains have been delayed, they are both travelling in different directions Phoebe is going to Paris and Sam is going to Scotland for a year. Their meeting is so real that you can feel and hear the sounds of the station, the instant attraction as their eyes meet and the desperate need to get to know one another. Although they only spend a couple of hours together they promise to meet up again in the same spot in a year's time. They both feel the attraction but want time to see if this can be a real relationship. The book describes their travels in a way that you feel like they are places you are familiar with. I'm not normally into romance novels but this was written so beautifully that I couldn't help but love this book. The characters that we meet along the way are brilliant and made me want to be a part of this fabulous story. A great read that captured my heart. They say you find love when you least expect it and that is exactly what happens, does love at first sight exist, who knows. But in this book it certainly does. Much more than you're average romance. A feel good story about love and friendship and how no matter how precisely you plan your life there are always surprises along the way. Thank you to NetGalley for my copy on exchange for a review. 3.5 rounded up to 4.

Sam and Phoebe meet by chance at St Pancras Station. All the trains are delayed so they spend an hour together. They realise that love could be blossoming between them. But Phoebe has taken a year out and her first stop is Paris while Sam is on his way to Scotland, hoping to find his father. They decide that if they feel the same about each other in one year's time, they will meet by St John Betjeman's Statue. The chapters switch between Phoebe and Sam. We are told where they are and what they are doing. The story wasn't as predictable as I thought it would be. There are a few unexpected twists to keep your interest. We also get told about the locations they are at. But do they get together? You will have to read the book to find out. I would like to thank NetGalley, HQ and the author Miranda Dickinson for my ARC in exchange for an honest review. [Epub] ? The Day We Meet Again ? The Brand New Novel From The Sunday Times Bestselling Author, Miranda Dickinson We LI Meet Again At St Pancras Station, A Year From Today If We Re Meant To Be Together, We LI Both Be There If We Re Not, It Was Never Meant To Be Phoebe And Sam Meet By Chance At St Pancras Station Heading In Opposite Directions, Both Seeking Their Own Adventures, Meeting The Love Of Their Lives Wasn T Part Of The Plan So They Make A Promise To Meet Again In The Same Place In Twelve Months Time If They Still Want To Be Together But Is Life Ever As Simple As That This Is A Story Of What Ifs And Maybes And How One Decision Can Change Your Life Forever

Phoebe and Sam meet when their trains are delayed at St Pancras and fall in love over a few hours but are both going away for a year so agree to meet again in 12 months and keep in minimal contact til then. It's a bit like the 90s film *Before Sunrise* in some respects. It sounds like a delightful love story, and it sort of is, but it's utter fluff. Sam is from the Isle of Mull but I'm not convinced the author actually knows anything about Scotland. Trains to Scotland don't go from St Pancras, so why is he there in the first place. She refers to it'll be dark soon about Mull in July. Scottish islands and long

late nights in summer isn't exactly an unknown phenomenon, and what islander minds driving at night anyway, and thinks Scottish school holidays are in August when they're in July. Phoebe is a 32-year-old woman with enough tenacity to do a PhD, but can barely contemplate travelling to Paris alone despite no obvious reason for her anxiety, i.e. no mental health issues, just a bit pathetic and her adventures are both unlikely and unexciting. There is no way that Sam is in the wrong at the end, and the long distance limited contact thing is ludicrous. The idea worked in *Before Sunrise* because it was the 90s and the characters were students, it doesn't work 25 years later when the characters are adults separated only by the Channel, not the Atlantic. Too many plot holes, not enough charm. I love a good Miranda Dickinson book and have been a fan for quite some time now. This book is simply no exception. I absolutely love the two main characters in this book, I loved their love story and their separate adventures and all the people that we meet along the way. It was like a massive hug in book form and I simply loved it. *A Beautiful Will They, Won't They* book that messes with your emotions and characters that you won't forget in a hurry. DNFARC kindly received from Harlequin Australia, in exchange for an honest review. I just couldn't get into this one. I have picked it up and put it back down multiple times in an attempt to read it. Whilst the writing is quite good, the story is just not holding my attention. Phoebe and Sam meet at St Pancras station by chance and it seems to be love at first sight. But, their lives are heading in opposite directions as they are both destined for their own separate adventures. They agree to meet again in the same place in a year's time if they want to be together. But where will their journeys take them and will they still feel the same about each other? I really liked the sound of this story as I've been really enjoying romcoms and romances lately. It was a really nice idea and I would definitely recommend this book for an easy read, however it wasn't as good as some of the other romances I've read recently, which is why I could only give this 3 stars. It dragged on a little too long and I didn't feel that engaged with Phoebe and Sam's individual stories. I sometimes found myself skim reading over parts which was a shame. I also found it hard to invest myself in Phoebe and Sam's connection as their initial meeting was quite brief. I wanted and needed a little from the characters and the plot. Thanks to NetGalley and HQ for a free copy of the ebook in exchange for a review.
