THE DARK TOWER SERIES

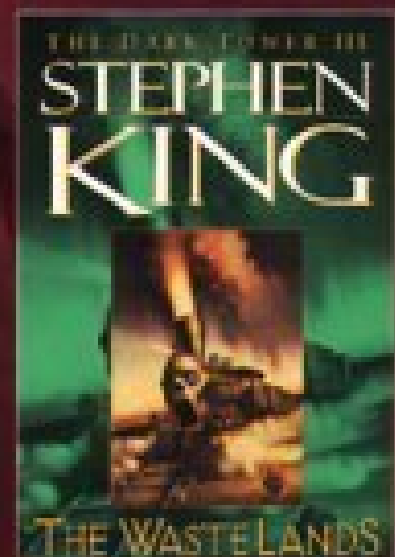

STEPHEN KING KING

THE
GUNSLINGER

THE DRAWING
OF THE THREE

THE
WASTE LANDS

These first three books of the dark tower series made me believe that Stephen King is

actually a really good writer.

Book four destroyed that impression.

The later books i never touched.

although...

i've read the four books in german translation, and i now, while writing this review, recognized that the fourth book had a different translator...

maybe i should reread them, this time in english, because the first three ones were really great books...

had been favorites for a long time...

5 Roland Deschain, Jake & Oy Stars!

"I don't like people. They fuck me up."

? Stephen King, The Gunslinger

Some of the most strongest characters I have EVER read, Roland the Knight, Jake and Oy make this book great for me. I love them so freaking much!

And, the concept....

Can a bilateral amputee female be a hero?

Yes. And, a great one at that. She to was one of the most strongest characters I have ever read...

But

I won't put a pic of the real Suzanne/Odessa on my review, because, I did not like her. Man

oh man, the way she was presented in this book(s)ODETTA/DETTA/SUZ, She is a black lady who suffered the hardship of prejudice that resulted in her becoming a below the knee amputee (BKA). Stephen King put's prejudice right out there in you face. You can't run you can't hide. You'll have to face the cause and effects in this book. It was harsh brutal and at times painful for me to read. As I never like to visualize a world with such hateful acts in my reads. Nevertheless it exists. Sigh.

So, what REALLY went wrong....well, her mouth was one thing, and, gosh, Lord have mercy she was carried in a sling on Roland's back through most of this book. Sigh....she needed to have those prosthetics just like the girl in my pic has on (abov) , Odessa was rich , she could afford them. And, gosh, they had them already invented in the timeframe this book was written.

"In 1863, Dubois Parmlee invented an advanced prosthesis with a suction socket, polycentric knee and multiarticulated foot"

Nonetheless, as the great Stephen King stated "Roland's katet—Eddie, Susannah, and Jake—have been drawn separately from troubled lives in New York into Roland's MidWorld quest". and I love that concept too.

The writing style

Good, but a little bit scattered. i somehow missed the extra characters in the first two books. But, the description writing was vivid .

The storyline & world

A Knight and his quest for the black tower. An apocalyptic like journey with a keen touch.

"Didachick? Dumachum? Dadacham? Dedacheck?"

Wow, it was uniuqiqe vivid, wild and crazy . Western, steampunk, futuristic, yet old. It feels hot and sticky, and at night it feels cool and breezy. The wasteland is the strongest and most vivid part within this world but, if that doesn't suit you...

“Go then, there are other worlds than these.”

? Stephen King, The Gunslinger

I look forward to more because I must go

Ka!

ka "signifies lifeforce, consciousness, duty and destiny. In the vulgate, or low speech, it also means a place to which an individual must go."

This was my first Stephen King book, and I must say for me it was/is love at first sight/read. Places author in my fav? I thought this was a very well written, science fiction series. Although the first book was a BORE and I almost didn't continue reading, I am really glad my brother convinced me otherwise. The rest of the series is full of complexity, and very exciting reading. Not sure what I think of the ending. I would recommend the series to others but would warn them first of how boring the first book is just skim it to get to the "good books!" Absolutely the best series I've ever read.
