@Free Epub ? Great Powers and Geopolitical Change Û In An Era Of High Technology And Instant Communication, The Role Of Geography In The Formation Of Strategy And Politics In International Relations Can Be Undervalued But The Mountains Of Afghanistan And The Scorching Sand Storms Of Iraq Have Provided Stark Reminders That Geographical Realities Continue To Have A Profound Impact On The Success Of Military Campaigns Here, Political Scientist Jakub J Grygiel Brings To Light The Importance Of Incorporating Geography Into Grand Strategy He Argues That States Can Increase And Maintain Their Position Of Power By Pursuing A Geostrategy That Focuses On Control Of Resources And Lines Of Communication Grygiel Examines Case Studies Of Venice, The Ottoman Empire, And China In The Global Fifteenth Century All Great Powers That Faced A Dramatic Change In Geopolitics When New Routes And Continents Were Discovered The Location Of Resources, The Layout Of Trade Networks, And The Stability Of State Boundaries Played A Large Role In The Success Or Failure Of These Three Powers Grygiel Asserts That, Though Many Other Aspects Of Foreign Policy Have Changed Throughout History, Strategic Response To Geographical Features Remains One Of The Most Salient Factors In Establishing And Maintaining Power In The International Arena This one is included as my top priority in Geopolitics theorization Its dissertation styled text gives us multi case study to provide ancient great powers geopolitical practice Empirical history data he got strengthen his geography geopolitic geostrategy conceptualization. 4 stars A simple thesis with a powerful message Geography matters, but geopolitics matters The latter fluctuates over time usually slowly, but sometimes dramatically as technology changes, as trade routes and markets evolve, and as centers of resources change, deplete or new ones are discovered Global powers who align their geostrategies with geopolitics succeed Those who don't are bound to struggle or fail Land powers with secure borders can extend their influence abroad Land powers without secure borders will have limited ability to project and sustain power abroad Jakub provides three very different historical cases of powers whose influence lasted centuries, but eventually drastically declined the City State of Venice, Ming China, and the Ottoman Empire The final chapter provides applicable lessons for the U.S in the Twenty First Century watch China manage presence, power projection, and relationships in the Asia Pacific region watch Mexico to ensure a secure southern border ensure a secure North Atlantic and Europe through NATO Maintaining U.S's global maritime presence secures influence, economic vibrancy and prosperity.

A very strong and well thought out international relations and geopolitics argument augmented by fascinating if occasionally flubbed in minor offhand detail Timurid empire being conflated with modern day Kazakhstan, Mongol trade routes disrupting the inland lanes without mentioning re invigorating the northern routes, and Japan apparently invading Korea in the 12th Century rather than the late 16th which makes the case for understanding great power politics as the connection between geography, changing technology, and how best to approach how the latter impacts the former.
