very cheesy The only chapter I liked was the last one. My rating for this book probably says about me right now than it does about the book itself, but I found myself nit picking

everything as I read I keep picking up romances, only to be reminded that I'm not really into romance any I don't buy the explosive immediate relationship seriously, you run into a man holding a big fking gun in a dark abandoned warehouse and your first thought is to KISS him, and the conflict between them seemed manufactured and far fetched I just couldn't suspend my disbelief enough to get into this one to the level I would have needed to in order to give it a higher score I finished it, but I must admit I skimmed the last few chapters and I was glad when I turned the last page.

@Download Ü Familiar Stranger ì Recruited By A Secret Paranormal Organization To Hunt Demons, Jack Harris Never Guessed The Revenge He Sought For His Partner S Death Would Be This Complicated Jack S Worldview Is Black And White Until He Is Ordered To Follow Mersey Bane, A Beautiful Woman Who Is Also A Familiar With Shape Shifting Abilities Mersey Belongs To The Cadre A Peaceful Hermetic Order That Captures And Studies Otherworldly Entities Which Is At Odds With Jack S Organization As Jack Delves Deeper Into The Inner Workings Of The Cadre, He Finds Himself Drawn To Mersey Like A Moth To A Flame She May Challenge All His Beliefs, But She Brings Color And Passion To His World Jack Doesn T Know Whether What He Feels For Mersey Is Love Or Lust But If He Doesn T Figure It Out Soon, They May Become The Hunted Instead Of The Hunters I loved this book It was fantastic, and delved into so many excellent otherworldly things, that I wish there was going to be another Mersey and Jack story Although, this is the first book in the Dark Enchantments series, which spans four books by four different authors. This was a fantastic start into the mysterious world of the Cadre And once you get to the end of the book, you realise just how perfect this title is Perfect and clever Both Mersey and Jack gotta love a hero called Jack I know I do were very likeable characters that learn a lot about themselves and each other throughout the story While leading the reader further into this intriguing world of demons, faeries and so much that I know we'll meet along the way Anyway, as you can tell I really, really, really enjoyed this book and will definitely be checking out the next books Michele s such a great writer. Story and idea good Plot was in there somewhere, but too many side tracks Way too much slang, took away from the story She was raised fairly cloistered and he was in the secret service They talked teenage trash Didn't sound believable and he was way too much Queen of Denial for me I've read and enjoyed many of her books, this was just not a best effort. Well I have to say this wasn't one of Michelle Hauf's best books, but it was okay and did keep my interest to get me to the end I like this author's style of writing, and as usual it was clear, to the point, descriptive and quite sweet in places There was some action and intrigue, and a nice little romance going alongside, but for me it just lacked something that I can't quite put my finger on, and hence didn't have a WOW factor I also felt the ending seemed a bit rushed and suddenly crept up on you It's not a book I would read again, but it was worth reading and would give paranormal romance fans a nice filler if you are not sure what to read next This was about a woman who is a familiar and can turn into a black cat The guy is a P Cell member they track demons The demons are using him for a portal to

enter earth but he does not realise it The familiar can see that this is occurring and tries to help him fight the demons. I didn't realize that this was a series nevertheless the book was good it has so many supernatural fantasy elements on it it's just that the story didn't stay long in me I don't know.. He'd witnessed the extraordinary, again This time Jack Harris was an agent with MI5 in England, and the monster, demon, devil had just sucked the living heart out of his partner the partner Jack thought he was in love with The anger within Jack made him a perfect agent for the P Cell, a special super secret group within MI5 that killed the demons, or the OEs, otherworldly entities He wanted revenge for his partner carrying the guilt that he couldn't save her and the guilt from his childhood when he'd made a child's wish Mersey Bane is a familiar with the uncanny ability to shift into a black cat She'd been trained from little to be a capture specialist she traps the demons for later return to the dark realm or for permanent storage Crossing paths with Jack while he's on a hunt is far too much of a coincidence From the moment Mersey sets eyes on him, she has the strongest urge to kiss him And much to Jack's surprise she does But they work for rival groups Mersey for the Cadre that captures the demons and Jack for P Cell that destroys them Yet they have a connection to one another that goes back to when Mersey was still in the womb and Jack had been a wide eyed brave little boy. This is my very first Nocturne and my first in the paranormal genre It took me a bit to get into this book, until I realized that the teeny tiny print was my hold up and I reached for the 1.5 readers Then the story took hold and I was introduced to the world of demons and familiars I loved Ms Hauf's Jack he's one delectable hero and I wouldn't mind snogging him for awhile Mersey believes with all her heart that she'll find the one that is for her But in the meantime she's lonely, and she doesn't want to hold back her intense attraction to Jack They have some really hot scenes And being privy to their naughty thoughts is a real treat This book had an unusual ending that I found surprising but actually very fitting All in all, I thoroughly enjoyed my first experience with the dark realm.

FAMILIAR
STRANGER
MICHELE HAUF

really wanted to like this, it has so many elements that I like and Michele Hauf is one of my favourite paranormal writers, however something just didn't gel for me with this one. I think my major gripe is the fact that it's set in England and the author has tried to use English slang such as snogging and shagging which is majorly off putting. It immediately made me dislike the hero. Didn't particularly warm to either character this was very much from Jack's POV and I think I'd much rather it have been from Mersey the heroine's, because as it stands I just didn't feel her. The plot is this book's strongest point I liked the story and really liked the paranormal world set up here with the two rival groups dealing with the paranormal one killing indiscriminately, the other capturing and interrogating I liked the set up too of the lovers being from rival groups. Wasn't too convinced by the romance. It was very sudden and just because Mersey's mum had decided he was going to be her daughter's mate way back when wasn't enough for me. I think again the problem stems from us not seeing enough of Mersey's POV. This is a nice quick read with an engaging story, but ultimately let down by the characters and language.
