Not a book to read when the 5 year anniversary is coming up But gives a great insight into the topic @Free Kindle ê Love Will Follow Å Interviewing Countless Couples, Using Current

Research, And Looking Deeply At The Key Areas In Relationships Which Cause Conflict Sex, Money, Family She Draws A Devastating Picture Of The Modern Indian Marriage % Of Divorces Are Initiated By Women % Of Indian Couples Say They Are Happy In Their Relationships But A Majority Of Them Say They Would Not Marry The Same Person If They Had A Chance To Replay Their Lives Rd Of Indian Couples Say They Are Dissatisfied With Their Sex Life Most Couples Call The Early Years Of Their Marriage The Honeymoon Years For Indian Couples They Are Usually The Worst Hardhitting, Eyeopening, And Completely Riveting, Love Will Follow Takes You Into The Hearts And Minds Of Indian Men And Women Full Of Moving Stories, Fascinating Statistics, And Insights, It Could Change The Way You See Your Relationship And Your Life Very insightful analysis of Indian attitudes towards marriage and relationships A must read Is this really a book Merely binding a few pages with glue and thread and giving it a cardboard cover does not make it so So is it really a book It read like a final year Psychology report than a work of non fiction It does qualify as an account of what plagues the Indian marriage today but fails to rise above being precisely that, an account It is a structured compilation of interviews, opinions and deductions, with lots of subjects, but no characters It is not entirely unfounded to expect works of non fiction to invest in characters They too tell stories albeit real ones In writing this book from a entirely diagnostic point of view, I think the author has erred in that the book fails to titillate the reader and evokes no empathy from him whatsoever In trying to become simultaneously a book book and a psychology text, the author has truly fallen between two chairs.

LOVE WILL FOLLOW

WHY THE INDIAN MARRIAGE IS BURNING

The book is a very accurate study of the internal dynamics of the Indian marriage. The author has captured different kinds of scenarios. However, when it comes to describing the working marriage, the book seems to lose the train of thought and go about in circles. A must read for all the married couples facing problems, parents pushing their children to get married and also people who want to understand how the Indian cultural and marital framework distinctly differs from anywhere else around the world.
